Target version:		Spent time:	0.00 hour
Description			
<p>I think we should use INK_UPP to highlight '=' character in HTML/XML files. Why? Because, this small change should give HTML/XML highlighter more polished look, but please test it before commit this patch to main branch.</p> <p>What we need to change? CodeEditor/TagSyntax.cpp (line 216):</p> <pre>Put0(INK_UPP);</pre> <p>Insted of</p> <pre>Put();</pre> <p>P.S. This is only cosmetic change.</p>
