Hello Mirek

Can we restore old CTRL+J navigator. It had its advantages. Justification you can find on:

http://www.ultimatepp.org/forums/index.php?t=msg&goto=43475&#msg_43475. At the end I wuold like to notice that leaving old CTRL+J navigator we don't lose anything, because it is optional feature and we have its code base. What do you think about this idea?
