U++ - Bug #822

"Remove assembly" should change current assembly when assembly is successful removed

08/03/2014 01:34 AM - Zbigniew Rebacz

Status:	Approved		**Start date:**	08/03/2014
Priority:	Low		**Due date:**	
Assignee:	Miroslav Fidler		**% Done:**	0%
Category:	IDE		**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

In current upp version "Remove assembly" always jump to first assembly on list even if user canceled this operation or the operation failed. I think simply code branching should do the trick. (More in diff file)

P.S.
Can I leave svn diff file istead of source file?
