Category:	CtrlCore		**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

Usually mouse moves to toolbar area or caption of theide -> crash

History

#1 - 02/16/2015 07:36 PM - Zbigniew Rebacz

I think we remove this kind of crashes by doing #970.

#2 - 02/25/2015 06:57 PM - Zbigniew Rebacz

- Category set to CtrlCore

- Status changed from New to Ready for QA

- Assignee set to Miroslav Fidler

- Priority changed from Normal to High

Can you accept this?

#3 - 02/27/2015 03:14 PM - Miroslav Fidler

Nope.

This is different kind. Mostly, I am getting these in vmware, when I move mouse to the are with vmware widgets (center top of screen). I guess they are sort of specific to VMs, but I want to fix it nevertheless.

#4 - 02/27/2015 05:04 PM - Zbigniew Rebacz

- Status changed from Ready for QA to New

- Priority changed from High to Normal

It is now more clear.
