Description				

History

#1 - 12/07/2014 09:40 PM - Zbigniew Rebacz

Method "Ide::DragAndDrop(...)" (idefile.cpp) searching for something like that:

/home/klugier/upp/Dynamic%20LineNumbers.diff

It seems that symbol "%20" means space which is wrong (FileExists function cann ot interperate this).

#2 - 12/07/2014 09:49 PM - Zbigniew Rebacz

It seems that problem is bigger than I think before. Polis letter (UTF-8) in file name also dosen't work.

Tested with: GTK Backend (X11 implementation is simmilar and should give simillar effect).
