Check and apply TreeCtrl improvement																										
Report scrolling with Painter content - scroll (...)																										
XML: support different encodings																										
Sqlite3 character encoding																										
svn log filter to do almost automatic announcement	(...)																									
TheIDE: create 'import by #include' function																										
TheIDE could highlight matching if/else																										
improve color Standard conversions RGB <-> (...)																										
Implement proper system shutdown sequence (...)																										
In linux, fix irregular scrollbar themes (...)																										
Check dotted flags behaviour																										
scalar Date conversion optimization																										
Sqlite3: foreign keys issue																										
SqlSchema: common way to define primary key (...)																										
Resolve issue with sprintf in Format																										
Topic++ - consider selector of language (and (...)																										
Problem with Forum																										
Update PAD XML																										
Add reference example for ArrayCtrl columns (...)																										
Support for Cygwin																										
Support windows manifest file, common builder (...)																										
Use shared bz2, jpeg, tiff in linux																										
Consider SqlExp: create view as (as we already (...)																										
MSSQL procedure call output parameters																										
Optimize HashBase, consider making it public																										
Breakpoints in templates																										
Better error handlong for JSON/XML																										

Check Skylark custom build steps (EXEDIR (...)
Add lockless support to Core and allocator
IDE: Unify umk Console and ide Console
Add CodeFolding to CodeEditor
Add reference: JsonRPC MT
Database option for app templates
Add timescan of iso8601
RichTextCtrl and RichEdit clipboar behavior
ArrayCtrl to show header fields when column (...)
X11 selection does not work as source
Alphabetical sorting of documentation topics (...)
Optimize void IconDes::SaveUndo()
Option: Keep svn commit message (or history?)
Skylark Replace '$'
Fix SQL threading issue
ide layout designer could pregenerate dialog (...)
Multiple configurations for theide
Add reference example for SQL functions
Periodic background jobs in skylark
Add CPU architecture flag(s)
.sch editor
Document .ini
Custom open/close images for TreeCtrl (and (...)
Header/Footer QTF should have '^^' suppressed (...)
umk should allow release mode with full debug (...)
X11 'klikac' issue with DropList and ArrayCtrl
Help popup items should only display corresponding (...)
Correctly implement MemoryShrink
Add GraphCtrl/GraphDraw to bazaar
Memory leak in SysExec
Should not IsString(Value((int)Null)) return (...)
TheIDE could highlight errors in indentation
Consider aliasing SQLIDs
TURTLE: Prevent 'easy' leaving of page (disconnect)

Write guide on MT GUI programming

Fix OpenGL/GTK

Investigate SqlSession overloading rules

GetTickCount / msecs should probably rather (...)

Sql: PARTIAL_INDEX_LIST should support String (...)

GLDraw problem

Oci8 memory corruption

ide: svn cleanup option after doing sync

CodeEditor should show "something" for characters (...)

When dialog is moved from one screen to another, (...)

TabCtrl should be able to Hide tabs

Check outgoing traffic

Option/Switch skinning

UnZip streaming mode (like Zip)

ide: Gdb_MI2 Weird issue with long strings

LineEdit: refactor recangular selection

Format/double variant that allows to specify (...)
