U++ Check and apply TreeCtrl improvement Report scrolling with Painter content - scroll (...) XML: support different encodings Sqlite3 character encoding svn log filter to do almost automatic announcement (...) TheIDE: create 'import by #include' function TheIDE could highlight matching if/else improve color Standard conversions RGB <-> (...) Implement proper system shutdown sequence (...) In linux, fix irregular scrollbar themes (...) Check dotted flags behaviour scalar Date conversion optimization Sqlite3: foreign keys issue SqlSchema: common way to define primary key (...) Resolve issue with sprintf in Format Topic++ - consider selector of language (and (...) Problem with Forum Update PAD XML Add reference example for ArrayCtrl columns (...) Support for Cygwin Support windows manifest file, common builder (...) Use shared bz2, jpeg, tiff in linux Consider SqlExp: create view as (as we already (...) MSSQL procedure call output parameters Optimize HashBase, consider making it public Breakpoints in templates Better error handling for JSON/XML	U++																							

Check Skylark custom build steps (EXEDIR (...))
Add lockless support to Core and allocator
IDE: Unify umk Console and ide Console
Add CodeFolding to CodeEditor
Add reference: JsonRPC MT
Database option for app templates
Add timescan of iso8601
RichTextCtrl and RichEdit clipboar behavior
ArrayCtrl to show header fields when column (...)
X11 selection does not work as source
Alphabetical sorting of documentation topics (...)
Optimize void IconDes::SaveUndo()
Option: Keep svn commit message (or history?)
Skylark Replace '\$'
Fix SQL threading issue
ide layout designer could pregenerate dialog (...)
Multiple configurations for theide
Add reference example for SQL functions
Periodic background jobs in skylark
Add CPU architecture flag(s)
.sch editor
Document .ini
Custom open/close images for TreeCtrl (and (...))
Header/Footer QTF should have '^' suppressed (...)
umk should allow release mode with full debug (...)
X11 'klikac' issue with DropList and ArrayCtrl
Help popup items should only display corresponding (...)
Correctly implement MemoryShrink
Add GraphCtrl/GraphDraw to bazaar
Memory leak in SysExec
Should not IsString(Value((int)Null)) return (...)
TheIDE could highlight errors in indentation
Consider aliasing SQLIDs
TURTLE: Prevent 'easy' leaving of page (disconnect)

Write guide on MT GUI programming
Fix OpenGL/GTK
Investigate SqlSession overloading rules
GetTickCount / msec should probably rather (...)
Sql: PARTIAL_INDEX_LIST should support String (...)
GLDraw problem
Oci8 memory corruption
ide: svn cleanup option after doing sync
CodeEditor should show "something" for characters (...)
When dialog is moved from one screen to another, (...)
TabCtrl should be able to Hide tabs
Check outgoing traffic
Option/Switch skinning
UnZip streaming mode (like Zip)
ide: Gdb_MI2 Weird issue with long strings
LineEdit: refactor rectangular selection
Format/double variant that allows to specify (...)

RegExp: Change rules for ReplaceGlobal for (...)
ide: "Apply diff" (like directory comparison (...)
PDB enums
Fix thread__ issues
GLCtrl issue
Core/SSL: Add a way to choose method (SSLv3, (...)
GLCtrl on GTK backend is slow and posses (...)
add jpeg-ls
Review NetProxy code
X11 backend has problems with compiz
Fix cinnamon issues...
Random crashes in linux
Add win32 clang
Remove hand icon from calendar
Windows 8/7/Vista? menuitem style extension (...)
IDE - File open dialog (FileSel) should use (...)

Response files issue
Copy spellchecker files to website
Synchronize controls after SetValue
Switching menu bar item is potentially slow (...)
It should be possible to define text of RichTextCtrl (...)
Add "witz" highlight to IDE
ide: DIFF syntax highlighting problem with (...)
Turtle - FileSelector undefined
ide: CdbHexView SetTotal should respect Win64
ArrayCtrl ColumnCtrl
Add bgp
TextCtrl: UndoBuffer limit, consider compression (...)
Check MI2
jsonrpc seems to have problem with Null Date
ide: Replace in block shows progress indicator (...)
ide: Check theide CPU activity while building
LZ4Decompress can crash if input file is (...)
Investigate issue of second loop in pdb debugger
If package contains following packages "Skylark" (...)
RichEdit::Print() fails when RichEdit is (...)
UWord to disable Save tool bar button after (...)
cpp: Resolve issue with iml/lay/sch
cpp: .sch could allow #include
InstallPanicMessageBox() available to program
RichEdit: What is wrong with this code?
SelectDirButton consider Append option
Content-ID header issue with HttpRequest
cpp: When adding (empty, or .cpp) file to (...)
Improve PDB debugger
Sometimes stop debuggin by button crash ide (...)
ide: Log (e.g.) should be reloaded when activating (...)
ide/cpp/u++: Check why in linux, it consumes (...)
cpp: Resolve specific declaration
Failure "[INSTALL_PARSE_FAILED_INCONSISTENT_CERTIFICATES]" (...)

Android builder should look for deleted files
Add logcat support
ide: svn history double-click should go to (...)
ide: Fix GccBuilder for OSX
Kde problems with gdb - failed to set controlling (...)
ide TabBar issue
Add NDK platform detection
TabCtrl should be able to have tabs at bottom (...)
Find(Replace) in files could predefine current (...)
Improve buildinfo
Turtle should support full screen window
Core: *Exists should accept non-regular names
Add gnu-libstdc++ library version selection (...)
In comment link detection
OpenGL 3 support
CtrlLib: FileSel could perform reload on (...)
GLCtrl dosen't recive key events
Improve Android Builder output
Assist++ could support local variable
ide: Clicking on tree pointer could move (...)
ide: Some C++ types like size_t could be (...)
ide: Number of columns could be per-file (...)
cpp: Body resume
cpp: Way to handle with special includes (...)
Consider replacing nasm
Tag syntax could support indentations
assist++ not working
Problem with string and parenthesis
Wrong postgresql include in many linux distros
Change Win32 OpenSSL library
Combine Navigator and Help
ide: Find pane should resize search fields
SVN Synchronize: option to disable nest
Syntax highlight for Objective-C

Fix documentation links
Fix upbbox
File Categories should be crated from config (...)
CtrlLib: Resolve visual glitch with pushed (...)
ToUpper, ToLower, ToAscii should work with (...)
Highlight deprecated parameters in [[annotation]]
Implement 404 site for uppweb
Dbus support for linux
Find in current file should work when file (...)
EncodeHTML could support embedded images (...)
Assist++ Problem with auto
Check utf-8 issue
Better main package separation
Parser: Auto type detection problem
Check boost compatibility
Insert package directory file dosen't work (...)
Investigate resizing issue
Svn sync should be able to deal with A+ files (...)
Svn history could detect last revision and (...)
CEF chromium in bin
Check Prompt / TopWindow Image issue
PrinterJob batch mode
Streamlined and corrected CodeEditor bar (...)
ArrayCtrl sorting needs refactoring
Layout designer should have crlf / lf / autodetection (...)
Add unittest of Painter
Fix problem with ArrayCtrl::Sorting
CtrlCore: 'CurrentTime' macro redefined in (...)
TreeCtrl set does not update the scroll rect
PrinterDlg::SyncPrinterOptions
Remove dependency of using shorts file name (...)
TabBar should have buttons instead of close (...)
TabBar should support tool tip
Color pusher should have it's representation (...)

Create "Build method" settings detailed documentation
Check IDE with 1366x768, 125% text
Linux issues with FullScreen
CodeEditor should not use global state for (...)
decode / findarg
ide: check handling of FileTime (probably (...)
libpng issue
Zstd custom memory allocation routines
TheIDE should show the fulllist of currently (...)
Replace widget arguments with 'double'
Copy backtrace of all threads seems to damage (...)
Update PCRE
Check pthread_isequal issue
Fix WhenPush issue
Add T&& variants
SVG to fix
Add GCC/CLANG sanitizers support to theide (...)
Fix PGSQL with mingw
RichEdit Ctrl+A behaviour
RegExp
Linux tarball installation MyApps might be (...)
Pasting image to slack
Improve DateTimeCtrl
Ide/Builders: U++ builder for clang-tidy
Unused parameter multisamplebuffering in (...)
Minimal set for pkg-config dependencies in (...)
Remove more than one inclusion of header (...)
Fix svg files (or rather should be 'implement (...)
Discrepancy: Mafile produces just single (...)
MSSQL: WhenReconnect
ide: Output mode additional flags
GetDataFile problem in RPI
Improve autotest
clang c++ 17 issue

OpenIndiana socket problem
Rapsberry PI / LX desktop issue
theide still generating empty assembly at (...)
Wine problem with changing the gui font size
Multimonitor issue windows10
Warnings option in error pane
Connect help with layout designer
MacOS issue with menubat (activated while (...)
Add missing exceptions to App.cpp
Investigate limit len of String for reference (...)
Build methods: Env variables?
No MyApp assembly after fresh installation (...)
Check RichEditTest problem with exit
Ide ideas: (for 2021.2)
Improve breakpoints
CppParser: Support auto *l = dynamic_cast<LayDesigner (...)
CppParser: Support Vector<String> h; for(auto (...)
ide: It would not hurt to add package/upphub (...)
Optimize Jsonize Date/Time
Repo sync could run in parallel
Fix capital letters in IDs (Json vs JSON (...)
reference/FilterStream did not compile, check (...)
se/FP80 crashes pdb debugger
git revert does not work
Use host API for NLS sorting
String refactoring
Add Enable(list.IsCursor(), edit, up, down, (...)
Debugger previous - next frame
RenderGlyph could be implemented in Draw (...)
Check Miriam Libre cmap (or even other fonts) (...)
c++ 17 should be now default
umk/ide: Adaptive debug mode
Should ConvertDouble do .g15?
Assist issues

ide view hard limit should be deduced based (...)
